has successfully completed the online Professional Certificate

Preparing for Google Cloud Certification: Cloud DevOps Engr

In this five-course accelerated Professional Certificate, learners explored techniques for monitoring, troubleshooting, and improving infrastructure and application performance in Google Cloud guided by principles of Site Reliability Engineering. Learners integrated prior technical skills into practical skills to prepare for the Google Cloud Professional DevOps Engineer certification.

Google Cloud Training

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
